I. MESSAGE FROM THE BOARD CHAIR

The Board of the Calgary Arts Academy Society is committed to ensuring a quality, accessible, Arts Immersion Education program for our students' development as learners and spirited citizens. The Board is further committed to partnerships with our community to advance the work outlined in this plan.

The Three-Year Education Plan identifies the way in which our commitments will be implemented and aligned with provincial goals and priorities. The Plan forms the basis of the Calgary Arts Academy Society's accountability to the population it serves. More information about this plan may be obtained by contacting the school (403) 532-3020 or accessing the website: www.calgaryartsacademy.com

Patricia M. Cavill
Chair, Board of Directors
Calgary Arts Academy Society

II. ACCOUNTABILITY STATEMENT

The Education Plan for the Calgary Arts Academy for the three years commencing September 1, 2007, was prepared under the direction of the Charter Board in accordance with the responsibilities specified in the *School Act*, the *Government Accountability Act*, Alberta Education Policy 2.1.1 ("Accountability in Education: School Authority Accountability") and the provincial government's accounting policies. The Education Plan was developed in the context of the provincial government's business and fiscal plans. The Charter Board is committed to achieving the results laid out in this plan.

Patrick Maguire, Superintendent

Patricia M. Cavill, Board Chair

III. PLANNING PROCESS

The Education Plan outlines the goals, strategies, measures and outcomes for continuous improvement at the Calgary Arts Academy & Research Centre. The planning process is ongoing throughout the year and this document captures a snapshot description of the process and anticipated outcomes and results.

Input and feedback from the Board of Directors, principal and school staff, superintendent, secretary-treasurer and school council representatives were incorporated to enhance and refine the continuous 3-year Education Plan first generated during the 2003-04 school year.

The work in the preparation of this document was informed by:

- The Charter document approved by Alberta Education
- The Guide to Charter School Education Planning and Results Reporting
- Alberta Education's current Business Plan
- The priorities of the Calgary Arts Academy Society Board
- Feedback from Alberta Education representatives and prior year results
- Ongoing monitoring of input from stakeholders including the School Council
- Recommendations from the Charter School Review Report, April, 2006

The planning process is intended to be transparent, inclusive and participatory. A key factor of accountability in the process is open communication with parents, community, government and other interested parties. Copies of the completed plan will be available as of June 22, 2007, and may be obtained from the school by calling (403) 532-3020, or accessing the document from the website at: www.calgaryartsacademy.com. The Plan will be reviewed again with the School Council at its first meeting in the fall of 2007.

IV. CALGARY ARTS ACADEMY VISION AND MISSION

Vision

Students and community who value arts and learning.

Mission

Calgary Arts Academy and Research Centre will be an innovative school that engages students through Arts Immersion and research to become confident learners and spirited citizens.

V. CALGARY ARTS ACADEMY PROFILE

The Calgary Arts Academy serves students from all quadrants of the city. The school is located at the former Glenmeadows Elementary School site in the residential district of Glamorgan in south-west Calgary. Our school community is comprised of students with an interest and need to learn through the arts. The school anticipates an enrollment up to 325 students in Year 1- 9 and 17 full time equivalent Kindergarten students for a projected total of 342 for 2007 - 2008. The school adheres to the Alberta Commission on Learning guidelines for class sizes. However, a unique aspect of our school is the inclusion of artists and support personnel who work collaboratively with teachers in planning and delivering programs for students.

Students are provided with instruction in all elements of the mandated Alberta Curriculum at all grade levels. The curriculum is delivered through Arts Immersion so that all concepts being presented begin with an art form as the foundation of learning. Artists and Educational Assistant/Artists work directly with teachers to plan and deliver the curriculum for students. Students receive instruction in at least three art forms (art, music, dance, visual or literary arts) each day. Student performances at regularly scheduled school assemblies or public performances for parents and community are curriculum based and strive to demonstrate learning of concepts from the various subject areas. The philosophical bases for learning are centered on concepts defined in the Circle of Courage, Democratic Discipline, Developmental Assets and Brain Theory, all of which are more fully explained in presentations and documentation provided to students and parents.

As an Arts Immersion school, the Calgary Arts Academy endeavours to build strong connections to the broader community, particularly the Arts community and related organizations and businesses. In addition, we accommodate practicum students with a specialization in the fine and performing arts from local post secondary institutions including the University of Calgary Master of Teaching Program, Mount Royal and Bow Valley Colleges as well as from post secondary institutions in other provinces, including Queens University and Trent University. .

Calgary Arts Academy
Three Year Education Plan 2007 - 2010

The charter for the Calgary Arts Academy was approved for a maximum of 325 students. The Glenmeadows School building currently has a rated capacity of 319 students following the addition of six portable classrooms during the 2004-05 school year. The charter proposal also called for accommodation of artist groups in the building to ensure a context for arts immersion and ability to build true partnerships in learning with artists from the community. The long-term needs of the school will require major modifications to the school building or relocation to a more suitable facility. The current building does not provide for the depth and breadth of learning through the arts that would be available through specialized spaces such as an art (various forms) studio, dance studio, music (band/choral) room, media production room and performance theatre. Comprehensive and advanced instruction through Arts Immersion will be impeded by the lack of such specialized facilities as the school continues to develop.

Additional space has been provided commencing in 2007 with the approval for the lease of Knob Hill School. In addition, the charter enrolment cap has been extended to 450 students. A plan to extend the school enrolment while maintaining the integrity of the Arts Immersion program is currently under development.

Transportation of students over long distances from far-reaching corners of the city will continue to be an issue for the school into the future. Ideally, students would not be transported for more than one hour, one-way, a factor that will limit the school from being as accessible and flexible as it might be for students from any quadrant of the city.

VIII. CAPITAL PLAN HIGHLIGHTS

In keeping with the Board's Strategic Plan, the Capital Plan for the period 2007 – 2010 consists of the following priorities:

- i. Maintain the leases of Glenmeadows Elementary and Knob Hill Jr. High schools for the entire period.
- ii. Continue to develop a plan to locate a campus on the Youth Campus of the Calgary Stampede Grounds. When this campus is complete we will be releasing Knob Hill School.
- iii. If plans for a permanent facility at the Stampede Grounds move ahead at a quicker pace and we are successful in being granted High School status then we will be looking at setting up portables at the Stampede Grounds as a temporary solution to accommodate our high school students. We will need the extra space as our enrollment would have increased and this allows for the retention of our junior high students after they graduate from junior high.

More complete information on the Capital Plan can be found on the school's website at:
